

APPLICATION FOR TEMPORARY FOOD ESTABLISHMENT
(Application requirements are outlined in Chapter 8, TB MED 530/NAVMED P-5010-1/AFMAN 48-147_IP)

OMB No. 0702-0132
OMB approval expires:
March 31, 2025

The public reporting burden for this collection of information, 0702-0132, is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or burden reduction suggestions to the Department of Defense, Washington Headquarters Services, at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

INSTRUCTIONS:

The application is completed by the operator of the temporary food establishment (TFE). Separate applications must be submitted for each independently operated establishment regardless if managed by a single operator. Submit completed applications to the regulatory authority at least 7 days before an event. In addition, each operator must provide:

- A drawing depicting the operational layout of the temporary food establishment. The drawing should provide orientation to the following activities/areas: food storage, food preparation/cooking, food service, warewashing (if applicable), and employee handwashing;
- A drawing of the entire event area depicting the TFE site in relation to the potable water supply, electrical sources, the wastewater disposal area, lavatories, etc.

1. DATE SUBMITTED (YYYYMMDD) 20260917		2. NAME OF TEMPORARY FOOD ESTABLISHMENT Rootline Community Initiative	
3. NAME OF OPERATOR OR OWNER Rootline Community Initiative Naomi Suguitan, President		4. MAILING ADDRESS PSC 444 Box 661 APO, AP 96297	
5. TELEPHONE NUMBER 010-4383-4296		7. DATE(S) AND TIME(S) OF EVENT/FOOD OPERATION 19 SEP 2026, 1430-2130	
6. NAME OF EVENT MWR Fall Fest			
8. DATE AND TIME TFE WILL BE SET UP AND READY FOR INSPECTION:			
9. LIST ALL FOOD AND BEVERAGE ITEMS TO BE PREPARED AND SERVED. Attach a separate sheet if necessary. <i>NOTE: Any changes to the menu must be submitted to and approved by the Regulatory Authority at least 24 HOURS prior to the event.</i>			
(1) Lemonade	(2) Strawberry Lemonade	(3) Apple Cider	
(4) Apple Cider Lemonade	(5) Cold Water Bottles	(6)	
(7)	(8)	(9)	
(10)	(11)	(12)	
(13)	(14)	(15)	
(16)	(17)	(18)	
10. Will all foods be prepared at the TFE site? ☒ Yes – complete Attachment A ☐ No* – complete Attachments A and B * If No, the operator must identify the permanent food establishment where the food will be prepared; food establishments operating off the installation require additional assessment by the Regulatory Authority for approval.			
11. Describe (be specific) how frozen, cold, and hot foods will be transported to the TFE (e.g., conveyance method & temperature controls): Frozen: None. Cold (TCS): Sealed water bottles. No potentially hazardous cold foods prepared, transported, or served. Hot: None. Shelf-stable goods (powder, syrups, sealed commercial water jugs, cups, lids, straws, serve-ware): transported in covered totes inside the enclosed passenger compartment, off the floor, in original sealed packaging until point of use. Ice: commercially packaged ice from an approved source, transported in hard-sided insulated coolers, pre-chilled, kept closed and shaded. Equipment and coolers cleaned/sanitized on-site before use.			

APPLICATION FOR TEMPORARY FOOD ESTABLISHMENT

12. How will food temperatures be monitored during the event?

No TCS foods; no hot- or cold-holding required. All beverages reconstituted on-site from shelf-stable commercial powder; all toppers sealed commercial candy. Ice held in clean, covered, food-grade containers and dispensed with a dedicated scoop. Frozen water bottles kept sealed.

13. Identify the sources for each meat, poultry, seafood, and shellfish item, and ice:

a. Item / Source Ice / Commissary-Shoppette-PX	b. Item / Source
c. Item / Source	d. Item / Source
e. Item / Source	f. Item / Source

14. How many (total) food employees will be working at the TFE? 5-8

Using **Attachment C**, provide the names and phone numbers of all TFE workers (paid workers and volunteers).

15. How many handwashing facilities will be available for food employees? 1

Describe the location(s) and handwashing facility set up (type of device) to be used by the TFE employees:

One (1) dedicated hand-washing station located at the rear of the booth, separated from beverage prep and from utensil washing.
Setup: a 5-gallon food-grade water container with a spigot/pump providing continuous free-flowing water, positioned over a catch bucket that collects all greywater; supplied with pump soap and single-use paper towels, with a lined trash receptacle adjacent. The station is reserved exclusively for handwashing. Hand sanitizers on tables available for use.

16. Identify the potable water supply source and describe how water will be stored and distributed at the TFE. If a non-public water supply (well water) is to be used, provide the results of the most recent water tests.

Source: Commercially purchased, factory-sealed potable water in jugs from an approved retail source - Commissary.

Storage: Sealed jugs kept covered, off the ground, and protected from contamination; opened only at point of use.

Distribution: Water is poured directly from sealed commercial jugs to supply the two on-site ice machines and the 5-gallon handwashing container. There is no direct plumbing or hose connection at the TFE.

17. Describe where utensil washing will take place. If no facilities are available onsite, describe the location of back-up utensil storage.

No on-site utensil washing. Sufficient pre-cleaned and sanitized utensils, scoops, and decanters are brought to last the full event and swapped as needed. Soiled items are placed in a covered, container and washed/sanitized off-site at a home kitchen.

18. Describe how and where wastewater from hand washing and utensil washing will be collected, stored, and disposed:

Greywater from handwashing (catch bucket) and any rinse water is collected in covered, leak-proof containers, stored off the ground, and emptied into an approved sanitary sewer connection. No discharge onto the ground, pavement, or into storm drains.

19. Describe the number, location, and types of garbage disposal containers at the TFE and the event site:

Booth: two (2) covered, plastic-lined receptacles — one customer-facing at the front for cups/napkins, one at the rear for operational waste — plus a small lined bin at the handwash station. Kept covered when not in active use, emptied as needed, with waste transferred to the MWR-provided event refuse point.

APPLICATION FOR TEMPORARY FOOD ESTABLISHMENT

20. Describe the floors, walls, ceiling surfaces, and lighting within the TFE:

Open-air booth under a pop-up canopy giving full overhead protection from sun, dust, and weather.

Floor: ground surface covered with tarps/mats under the prep and service area.

Walls: open-sided canopy with side panels available against wind-blown debris.

Overhead: canopy top covers the food-handling area.

Lighting: natural daylight for most of the time slot, with MWR-provided lighting for the final stretch as it approaches dusk.

21. Additional information about the TFE that should be considered.

All food and beverage items are commercially prepared and shelf-stable (non-TCS). Lemonade is mixed on-site in a covered decanter from commercial powder and bottled potable water. No bare-hand contact; ice is handled only with a dedicated scoop; All ingredients remain in original sealed commercial packaging until point of use. Beverages are built and served by trained volunteers (no customer self-serve). An ill-worker exclusion policy is in effect.

23. REGULATORY AUTHORITY: Approval of these plans and specifications by this Regulatory Authority does not indicate compliance with any other code, law or regulation that may be required (i.e., Federal, state, or local). Furthermore, it does not constitute endorsement or acceptance of the completed establishment (structure or equipment). A pre-opening inspection of the food establishment with equipment in place and operational will be necessary to determine if it complies with the Tri-Service Food Code and local and state laws governing food service establishments.
